

Duck Dunn Style Bass Line

This is a groove from my book RnB, Soul & Motown Style Basslines. You can buy it on Amazon or see the buying options on my store on the site (PDF, Kindle, paperback).

Below is the C Major Pentatonic scale which the bass line (and many soul bass lines) is built from. Learn it off by heart.

Major Pentatonic scale (C)

To Practise

- Work the groove up to around 118BPM
- Use a metronome or drumbeat to work on timing
- Memorise the major pentatonic scale
- Make sure you understand the interval structure
- Make up fills and embellishments around the main line using the scale
